

Heavenly Hedgies Hedgehog Travel Checklist

- Safe plastic bin, playpen, or other containment vessel
We find that a playpen is the most compact, lightweight, and versatile option; For extra protection please use a puppy pad under the playpen
- Heating system used at home or an alternate travel system
We use a heating pad placed under a barrier and controlled by a separate thermostat
- A favorite hide or bonding pouches
We find that bonding pouches serve dual purpose and pack compactly
- Plenty of fleece liners and a laundry bag for soiled ones
Quantity will vary depending on whether your hedgie is litter trained (too many is better than too few); unscented puppy pads are great if your hedgie isn't a digger or liner diver
- Food, gut-loaded worms, feeding tongs, food dish and water dish or bottle
Water bottles generally don't work out well in temporary housing
- Litter pan and sufficient litter for the trip
Paper pellets or paper bedding can be flushed down the toilet - Not wood chips
- Grooming supplies: nail clippers, hog wash, cleaning brush, toothbrush
A deep disposable plastic food storage container with lid serves double duty as a carrier for supplies and as a foot bath vessel when empty
- Any medications your hedgie is on and a cooler with ice packs if necessary
Medication marked as "keep refrigerated" can lose its potency if not stored properly
- A file that has medical history along with current vet's name and number
Don't forget the list you made of vets that treat hedgehogs along your path and at your destination
- Running wheel and favorite toys if they have any
If you will only be gone a couple of days, the running wheel may be something they can do without - You know best
- Hand warmers or snuggle pack warmers for outings
These really help keep your hedgie cozy when they are away from their cage on outings
- Hedgehog carry bag and/or fanny pack
Let the adventures begin!

Bon Voyage!
